

MD JUNAID KHAN

Software Engineer II | Hyderabad, India | +91 7396976982 | junaidapj@gmail.com

Profile Summary

Software Engineer with 9+ years of experience building scalable fintech systems and data-driven applications. Strong expertise in Python, system design, and analytics. Recently built LLM-powered applications using LangChain, LangGraph, and Retrieval-Augmented Generation (RAG), including an AI Resume Analyzer. Focused on solving complex business problems at the intersection of finance and AI.

Key Skills

- 1 Python, Data Structures & Algorithms
- 2 Machine Learning, Deep Learning, Statistical Modeling
- 3 Artificial Intelligence, Data Science, Data Analytics
- 4 LangChain, LangGraph, LLM Application Development
- 5 Retrieval-Augmented Generation (RAG), Prompt Engineering
- 6 Vector Databases (FAISS/Chroma), AI Agents
- 7 Django, REST APIs, SQL
- 8 Financial Systems, Regulatory Reporting

Work Experience

Software Engineer II – Bank of America (2020–Present)

- 1 Led end-to-end delivery of reconciliation systems for large financial datasets
- 2 Managed releases, stakeholder communication, and production stability
- 3 Performed code reviews and improved system performance and reliability
- 4 Resolved production issues through root cause analysis and collaboration

Data Science Specialist & Django Developer – DigitalLync

- 1 Built ML-based attendance system using image processing
- 2 Developed backend APIs using Django and Python
- 3 Collaborated with teams to deliver scalable ML solutions

Projects

AI Resume Analyzer (LLM + LangChain + LangGraph + RAG)

- 1 Built AI system to analyze resumes against job descriptions
- 2 Implemented RAG pipeline using embeddings and vector search
- 3 Used LangGraph for multi-agent workflows and orchestration
- 4 Optimized prompts for accuracy and reduced hallucination

CFTC Reconciliation Rewrite

Redesigned financial reconciliation systems for regulatory compliance.

Attendance Marker

Developed ML-based attendance system using CV2 and PIL.

Education

M.Sc Mathematics – Osmania University (2023)

B.Tech Electronics – Osmania University (2016)
